## Governor Parnell to Retire From Politics Given \$104,000, Promises to Get Lindbergh Baby

### Decision Reached Tuesday Afternoon After Conference

To Give Entire Attention to 3,000-Acre Farm in Chicot County

### WILL QUIT POLITICS

Had Been Considered Senate Candidate by Friends Over State

LITTLE ROCK.—(P)—Gov. Parnell announced Tuesday afternoon his retirement from politics at the end of his present term, having decided at the last moment against entering the race for United States Senator.

In a short statement, Governor Parnell said that it is imperative that he retire from politics to give his whole attention to his 3,000-acre farm in Chicot county.

He said, that due to his inability to give his personal attention to his private business affairs, the value of his holdings had shrunk.

"While it would be a great honor to be United States Senator," he said, "I consider it a duty to my family that I protect their interests."

### Lindbergh Baby Missing 69 Days

No Kidnaped Child Has Ever Returned Alive After That Period

HOPWELL, N. J.—If Charles A. Lindbergh Jr., is returned alive to his parents, a new precedent in kidnapings will have been established, statisticians revealed Monday night.

The world's most famous baby, now almost 23 months old, has been missing for 69 days.

Records of outstanding kidnaping cases in America in the last 50 years show only one instance of a child's return after an absence of more than two months.

Richard Grant, 11, of Los Angeles, was held 66 days—from December 22, 1927, to February 26, 1928. He had helped to plot his own abduction and was discovered living happily with his kidnaper in New Mexico.

The nearest approach to the Lindbergh case, in age and length of absence—is the kidnaping of Salvatore Bufa, three, who was returned to his parents in New York city after being held 47 days in 1911.

For a few hours Monday, while they awaited the arrival in New York of an Eastern Steamship Company boat from Boston, police believed they might be on the trail of the long sought baby.

A taxi passenger, accompanied by a child resembling the kidnaped heir to fame and fortune, pulled down the shades of the cab on the way to the steamship pier in Boston Sunday night and aroused the driver's suspicions.

Notified by Boston authorities, New York police arrested Robert Vincent Ogil, 30, of Washington Heights, New York city, when the boat docked there. He convinced them however, that the 20 months old child with him was his own.

Ogil, an employee of the Interborough Rapid Transit Company said the baby's mother died when it was born and its grandmother had cared for it in Boston. He planned to take it to Ireland next month to live with its paternal grandparents.

In Hopewell, state police were waiting somewhat anxiously for the return of Colonel Lindbergh, now gone from his estate for 20 days.

The absence of the usual week-end visitors at the Lindbergh home caused observers to wonder if Annie Lindbergh had not moved to the home of her mother, Mrs. Dwight W. Morrow, in Englewood, N. J.

### MacArthur Called to Army Hearing

Protests Proposal to Slash Personnel of Army Officers

WASHINGTON.—(AP)—Gen. Douglas MacArthur, army chief of staff, was hurriedly summoned by the House Military Committee to testify in a secret session regarding proposed slashes in the army personnel as contained in the War Department supply bill.

MacArthur Monday filed a vigorous protest with Representative Snell, Republican leader, against the proposal to reduce the number of officers from 12 to 10 thousand.

### Mrs. Caraway Files Re-Election Pledge

Entry Follows Lengthy Consideration by Woman Senator

WASHINGTON.—(P)—Mrs. Hattie Caraway of Arkansas, first woman to be elected to the senate, Monday night filed notice of her candidacy for re-nomination in the state primary.

The entry for renomination in the democratic primary of August 9, was made by Mrs. Caraway after lengthy consideration.

She took the place of her late husband, Senator Thaddeus Caraway, last fall by appointment of the governor of Arkansas. Subsequently Mrs. Caraway received the endorsement of the democratic state central committee for renomination to fill out the unexpired term of the late Senator Caraway.

She was nominated and elected. Monday night Mrs. Caraway filed for nomination in the election for a regular term. Her present term ends next March 4.

In the contest for the nomination the Arkansas woman faces a real fight. Six candidates, including a former senator and a former governor, are in the race.

It was with some hesitancy that Mrs. Caraway, a novice in politics and the mother of two sons, entered the contest but friends who have watched her record in her brief tenure of office urged her to do it.

Mrs. Caraway conceded she is not a politician nor a speaker but her friends are convinced that her record of steady attendance at committee meetings and in the senate qualify her to represent the state.

Mrs. Caraway quietly announced her own program Monday when, after sitting in the chair of the vice president, she remarked "I like to keep my feet on the ground." That was her complaint about sitting in the chair of the presiding officer, the first woman to do so. She said she could not keep her feet on the floor in that chair.

### School Officials Face Ouster Suit

Hearing at Fayetteville Set for Thursday in Circuit Court

FAYETTEVILLE.—Thursday has been set for hearing of the motion filed before Circuit Judge John S. Combs here to suspend from office O. W. Bass, Washington county superintendent of education, as a result of the indictment charging Bass with falsifying election returns. The motion also includes suspension of G. N. Cade, W. M. Morton, J. P. Stokesbury and W. W. Kimbrough as members of the county Board of Education. The suspension would continue until the five are tried.

The indictment, returned by the Grand Jury last week charged Bass and the four board members with falsifying returns of the March School election. It was charged they made it appear that Paul Brogdon was elected instead of A. W. Mintun. All five of the men have been bonded.

An appeal has been taken from the Circuit Court order suspending the board's certification of Brogdon's election. The court directed the board to meet within five days and certify returns as shown on the face of returns. This order was in the suit of Mintun vs. the County Board and each of its members. The defendants were given 60 days in which to prepare and file a bill of exceptions.

### Machine Gunners Ambush Gangsters

Assailants Mow Down 2 Victims From Second Floor Window

GARFIELD, N. J.—(P)—Machine gunners, who had kept a long vigil for their victims in a second floor apartment window, mowed down two alleged gangsters as they left the scene of an all-night party Monday.

The victims were: Harold Schlenger, 22, of Passaic, brother of "Wild Bill" Schlenger, slain by gang enemies, two years ago. Joseph Bonfonti, 24, of Garfield. Schlenger, shot five times in the legs, is expected to recover, but Bonfonti was wounded critically in the back and neck.

### Painleve, His Opponent, Retires As Candidate Monday Night

VERSAILLES, France.—(P)—Albert Francois Lebrun, Tuesday was elected as the fourteenth president of the French Republic, succeeding Paul Doumer, who was assassinated last Friday.

He won by an overwhelming majority on the first ballot cast.

His only formidable opponent for the office was Paul Painleve, who withdrew from the running Monday night.

Lebrun received 633 out of 787 of the votes cast.

He was elevated to chief executive from the presidency of the senate.

Lebrun who is 60 years of age is an old hand in French politics and is something of a protégé of Raymond Poincare.

Nomination Predicted

### Akron Enroute to Pacific Coast

Giant Airship Encounters Rain and Electrical Storm Monday

WASHINGTON.—(P)—Lieutenant Commander Rosendahl reported to the navy at noon Tuesday that the crossing of the mountains in Texas by the Akron was impeded by impenetrable lines of thunder storms Monday night and "zero visibility so far Tuesday."

SAN ANGELO, Tex.—(P)—Apparently having safely weathered a rain and electrical storm the world's largest airship was thought to be heading toward El Paso Tuesday morning.

Harassed by the elements Monday night and early Tuesday morning in the region of San Angelo, the world's largest airship was thought to be heading toward Randolph Field at San Antonio.

The American Airways radio station at Fort Worth said they had established contact with the Akron and it had passed over Dryden, Texas, at 5 o'clock central standard time Tuesday morning.

### Hudspeth to Aid in Affairs of Bank

Disappeared Just After 9 of Financial String Had Collapsed

HARRISON, Ark.—(P)—Back again with "homofinks" after having left just before the collapse of nine banks in his financial chain last August, A. T. Hudspeth Monday offered his assistance to the liquidating agents in straightening out affairs of the closed institutions.

Hudspeth surrendered at Clarksville last week and made bond on three charges in connection with the bank failures. He returned here Monday—nine months after officers of the bank here made public a letter from him saying "when you receive this, I'll be in Canada."

Hudspeth, who declined to say where he had been when he surrendered at Clarksville, maintained his silence here. He went to the home of a daughter, Mrs. Truman Shadock. He said his health had been bad most of the time he was absent but it has improved.

Prosecuting Attorney Jack Holt was unsuccessful in trying to have Hudspeth's bond of \$2250 increased. Circuit Judge J. F. Koone holding he was without authority to order Hudspeth rearrested and his bond increased during a court vacation.

After saying he would offer his assistance to the liquidating agents, Hudspeth said he would start preparations for his trial in July.

### Means and Accuser

### M. E. Sherland New Purchasing Agent

Gov. Parnell Announces Selection of Former McGee Postmaster

LITTLE ROCK.—M. E. ("Mike") Sherland, former postmaster of McGee, Desha county, and secretary of the Senate at its 1931 and 1932 sessions, will be appointed state purchasing agent by Governor Parnell to fill the vacancy left by the death Saturday of B. O. Jackson, the governor announced Monday night.

Mr. Sherland was appointed postmaster at McGee by President Woodrow Wilson. He is well known in southeast Arkansas, having been active in political and civic affairs. He served as secretary of the Arkansas-Louisiana Highway District.

He expressed appreciation for the appointment from the governor Monday night and said that he would be ready to begin his new duties without delay. Mr. Sherland said that he would announce his administrative plans after he had taken over the office.

### Three Escape From Oklahoma Jail

LOCK JAILER IN CELL AS HE BRINGS BREAKFAST TO THEM

HOLDENVILLE, Okla.—(P)—Three persons escaped from the county jail here Tuesday after seizing Jailer Jim Sikes and handcuffing him in their cell, when he brought food to them.

A fourth prisoner, refusing to join in the escape released Sikes.

The fugitives are Earl Elms, wanted in Arkansas for robbery, Frank Emerson, wanted in Reid, Okla., for robbery and Paul Shraack, held for Oklahoma county officers.

### Bulletins

WASHINGTON.—(P)—John Moorehead, minister to Sweden, testified to the Senate Judiciary Committee Tuesday that he favored state liquor control, the same as the Bratt system in Sweden.

WASHINGTON.—(P)—Secretary Hurley issued a bulletin Tuesday saying that he was opposed to reduction in the personnel of the army.

### Typhoid Checked By Health Nurse

Over 4,000 Immunizations Given by Mrs. Ira Hammonds

More than 4,000 anti-typhoid immunizations have been given citizens of Hempstead county during the last year by Mrs. Ira Hammonds, the former Pauline Mitchell, county health nurse, who has just filed her annual report.

Mrs. Hammonds was placed here more than a year ago by the federal government which undertook special medical work in the states affected by the 1930 drought. The permanency of her work, it is understood, depends upon the county co-operation with the state and federal government along the lines followed in county farm and home demonstration programs.

Mrs. Hammonds summarizes her year's activities as follows: Educational: Lectures 39; health bulletins distributed 3,665.

Acute Communicable Disease Control: Visits to cases, carriers, or contacts 51; cases isolated 30.

Tuberculosis Control: Number examined 7; positive 2; negative 5; home visits 41.

Immunizations: Complete (anti-typhoid administration 4,372; anti-small-pox vaccinations 727).

Schools: Children examined 1,505; found defective 1,415; defects found 3,699; consultations, parents (office and school) 77; home visits 65; exclusions for communicable disease 96.

Results—Corrections of Physical Defects Induced: In infants 20; in pre-school children 22; in school children 100.

### Mrs. Caraway Rules In Senate Monday

Given Honor of Being the First Woman to Pre-side Over Body

WASHINGTON.—(P)—Senate history was made Monday. Mrs. Caraway, democratic senator from Arkansas, presided over the chamber.

Vice President Curtis invited her to the presiding officer's desk. It was the first time a woman had ever held the gavel.

Her brief rule in the chair was uneventful. Senator Glass (D., Va.) held the floor uninterruptedly and no question of procedure arose in any way for the diminutive quiet lady from Arkansas to pass upon.

Mrs. Caraway later in discussing the incident expressed her appreciation of the opportunity given her by the vice president.

"But frankly," she said, "the chair is not as comfortable as my own here on the back row. I have a hassock on my chair so my feet can touch the floor. The president's chair has no hassock and so I couldn't keep my feet on the ground."

Mr. Curtis explained simply that "I wanted Mrs. Caraway to have the honor of being the first woman to preside over the senate."

### Judsonia Strawberry Shipments Are Heavy

LITTLE ROCK, Ark.—(P)—Strawberry shipments from Judsonia, White county, Monday were believed to set a record for a single day's shipment. Between 125 and 145 carloads moved out and were expected to bring growers \$100,000.

## Kudzu, Once Ornamental Plant, Now Good Forage

CLEMSON COLLEGE, S. C.—(AP)—  
Kudzu, used for many years as an  
ornamental plant to produce shade,  
has been found by the Clemson Col-  
lege extension service to be useful as  
a pasture and hay plant.

Kudzu, a perennial of the legume  
family, is particularly adaptable to  
the farms of the southeast, S. L. Jef-  
fords, extensionist said.  
"As a forage plant," Jeffords ex-  
plained, "kudzu apparently is relished  
by all classes of livestock in both  
the green stage and the cured, or  
hay, stage. While it will grow on  
the poorest clay and sandy soils, it  
will produce the greatest amount of  
grazing and hay when planted on  
fertile soil. It has proved itself  
double-resistant as compared with  
other legumes."

Hoover told the governors that they  
must cut down expenses. Now it's  
their turn.

## Negro Minstrel On Saenger Stage

Pupils of Shover Street  
School to Present  
Program

Thursday and Friday nights the  
Saenger Theatre will be the scene of  
much hilarity, and fun when the  
Shover Street School presents an all  
negro minstrel on the stage.

The first advance rehearsal show  
that this school contains some unusual  
promising talent in the way of song-  
sters and dancers.

The entire vaudeville show will last  
from 50 to 60 minutes that are crowd-  
ed with entertainment. The songs,  
dances and jokes are fast and peppy  
presented with the pep and enthusias-  
m that is characteristic of the negro.

The feature picture playing in con-  
nection with the minstrel is "Way-  
ward" starring Nancy Carroll, Rich-  
ard Arlen and Pauline Frederick.

## Increased Freight Business On River

Another Packet to Be Op-  
erated Between Camden  
and New Orleans

CAMDEN—Because of the increased  
freight on the Ouachita River, weekly  
steamer service will be inaugurated  
by the Cooley interests starting next  
week, it was learned here Saturday,  
when the steamer Ouachita docked  
here. Henry Cooley, manager of the  
Ouachita since the death of his father,  
the late Capt. L. V. Cooley, announced  
the new service, saying that a new  
steamer, the Moore, with Captain  
Cook commanding, had been chartered  
and would arrive here about Friday.

The Ouachita, with Captain Mul-  
len commanding, will continue its  
regular trips. It requires two weeks  
for the packets to make the round trip  
from New Orleans to Camden. Lark  
cargoes of sugar and other commodi-  
ties will be shipped to Camden for  
distribution throughout south Arkan-  
sas. The freight is brought to Cam-  
den by water and from here trans-  
ported to other cities by truck. The  
river freight rate is half that of rail.

The death of Capt. Sam Cotton, aged  
about 70, veteran riverman and first  
mate under Captain Cooley for many  
years, a few days ago, was reported  
here when the Ouachita docked. Cap-  
tain Cotton was placed in command  
of the Ouachita at the death of Cap-  
tain Cooley. Several months ago he  
became ill and an operation followed.

He was almost as widely known as  
Captain Cooley, and was the central  
figure in many of River Board's  
famous stories of river life. He ap-  
peared in one motion picture, "The  
Fighting Coward," directed by James  
Cruse and starring Mary Brian and  
Cullen Landis. The old steamer Amer-  
ican was used for the picture. Captain  
Cotton had been on the river all his  
life. His sons are all rivermen.

INDIANAPOLIS, Ind.—(AP)—For the  
first time a fin-shaped car, similar in  
principle to the cars used in establish-  
ing world speed records in Florida,  
will appear in the Indianapolis motor  
speedway race this year.

The fin is useful on the straight-  
away beach courses in holding the car  
to its course, but the experts are won-  
dering what will happen when such  
a car barrels into the Indianapolis  
speedway turns at high speed.

The car is to be driven by Babe  
Stapp. Stapp, whose arm was broken  
in a accident at Ascot, has announced  
that it will take more than a broken  
arm to keep him from trying out  
that new car.

## Winning Track Race Easy for Georgia Cadet

ATLANTA.—(AP)—Coach C. M. Pa-  
get has discovered a real "one-man  
track team" at Georgia Military  
academy.

He is Perrin Walker, 18-year-old  
cadet, who so far this year has scored  
146 points for his team out of a possi-  
ble 146. He has won 23 first places in  
six track meets.

Walker has no specialty—he runs in  
almost everything. He competes in  
the 100 and 220 yard dashes and takes  
part in the 880-yard and quarter-mile  
relays.

For the 100 his best time is 10 1-10.  
He has scored six feet one inch in the  
high jump, boasts a record of 22 feet  
in the running broad jump, has  
thrown the discus 120 feet and his  
best throw with the 12-pound shot is  
48 feet.

FINA OF JACK DEMPSY'S  
ANCESTOR 'DEADLY WEAPON'

BURNSVILLE, N. C.—(AP)—Jack  
Dempsy can prove by court records  
that he came of "fighting blood."

In the office of the clerk of court  
here there is a transcript of a court  
order which declares "the fists of the  
late Nate Dempsy deadly and lethal  
weapons."

Nate Dempsy was the great-grand-  
father of the Marquis de Sade, and liv-  
ed among the mountains of North  
Carolina, where fighting as a vocation,  
was unknown; as an avocation it was  
indulged in by all men.

There are records that Nate Dem-  
psy once choked a bear to death with  
his bare hands.

# DO YOU INHALE?

Why are  
other cigarettes  
silent on this  
vital question?

Do you inhale? Seven out of ten people know  
they do. The other three inhale without  
realizing it. Every smoker breathes in some part  
of the smoke he or she draws out of a cigarette.

Do you inhale? Lucky Strike has dared to raise  
this vital question... because certain impurities  
concealed in even the finest, mildest tobacco  
leaves are removed by Luckies' famous purifying  
process. Luckies created that process. Only  
Luckies have it!

Do you inhale? Remember—more than 20,000  
physicians, after Luckies had been furnished them  
for tests, basing their opinions on their smoking  
experience, stated that Luckies are less irritating  
to the throat than other cigarettes.

Do you inhale? Of course you do! So be careful.  
Safeguard your delicate membranes!

## A Statement To The Public

Certain individuals are circulating a petition  
opposing the purchase by the City of a new generator for  
the municipally-owned light plant.

This is your plant. It is a business owned and op-  
erated for the benefit of your city government and you  
as the taxpayers and consumers of this city. Sound  
business principles must govern its management.

The purchase of this new generator was recom-  
mended by the chief engineer and the manager of the  
Water & Light Plant.

It was recommended to the City Council by the  
Water & Light Committee.

It was unanimously approved by the City Council.  
We went into the matter of this purchase and  
studied it thoroughly, doing what we thought was for  
the best interests of the city government, its taxpayers  
and consumers, without reference to politics.

The City Council voted unanimously to make the  
purchase. Every member of the City Council was elected  
by the people of the entire city, to transact the public  
business and act for all the taxpayers and consumers.  
Your representatives have conducted an intensive in-  
vestigation and are convinced that the purchase of this  
new generator is absolutely necessary at the present  
time.

The present equipment of the Water & Light Plant  
consists of a 500 KWH Westinghouse generator and a  
1000 KWH General Electric generator. The smaller  
machine was installed first, and paid for itself, earn-  
ing enough later to help install the larger one—and  
that paid for itself. And now the two machines have  
accumulated \$30,000 toward the purchase of a new  
\$40,000 generator of 1500 KWH capacity, which is the  
machine we propose to purchase.

The situation at the municipal plant is this: there  
is one machine of 500 KWH capacity, and a second ma-  
chine of 1000 KWH capacity—but at the peak load of  
the season, when cotton gins and other plants are in op-  
eration, the 500 KWH generator will not pull the load.  
The City of Hope is left at times during the year with  
only one generator capable of handling our electric re-  
quirements. If anything should happen at this peak  
season, our electric service would be crippled—and  
things do sometimes happen where any machinery is  
concerned, regardless how competent and careful the  
engineers may be.

Everyone knows that an electric generating plant  
subject to demand all through the 24 hours of the day,  
and handling varying loads through the entire year,  
must have duplicate equipment, so that if one gen-  
erator is being repaired the plant has a second one of  
equal capacity to fall back on. The City of Hope hasn't  
any second machine of such capacity at this time—and  
we propose to buy one.

The auditors testified before the City Council  
that without the Water & Light Plant the City of Hope  
would be in dire financial straits. The Water & Light  
Plant is the chief revenue-producer and credit asset  
of the city government. The plant must be maintained  
up to safe standards.

As every citizen knows, it takes just so much  
money to run the city government. If the city doesn't  
get it from the Water & Light Plant, then the city will  
have to get it from the taxpayers in the form of special  
levies, such as an OCCUPATION TAX AND OTHERS.

Other cities are forced to make such special levies  
upon their citizens—but because of the successful op-  
eration of our municipal plant we haven't had to tax  
our people in this manner.

Let's keep the Water & Light Plant up to the  
standards dictated by good business judgment, and  
enjoy the same measure of tax freedom that we have  
enjoyed in the past.
